

CLEAN AND DISINFECT SURFACES + OBJECTS

COVID-19

Coronavirus can live on surfaces for up to 72 hours
-- frequently touched surfaces and objects should be cleaned and disinfected often to avoid spreading the virus.

Wear disposable gloves when cleaning and disinfecting

1) CLEAN. Before disinfecting, wash surfaces with soap and water.

2) DISINFECT.

a) Use **diluted household bleach solutions**.
(If appropriate for the surface)

- * Ensure the product is not expired
- * Follow the instructions on the label for proper application and ventilation

b) Use **alcohol solutions** containing at least 70% alcohol.

c) Use a **household disinfectant**.

- * Follow the instructions on the label for safe and effective use

Bleach Solution:

1/3 cup bleach
+ 1 gallon of water

OR

4 teaspoons bleach
+ 1 quart of water
